yashguptaz

Lucknow, India

17-year-old Web Developer with a taste in design, I care about developing applications with empathy for the end-user and writing code for humans.

## Experience

### 2018 - Current

#### Open Source

Authored and actively maintaining a React Library called **react-directory** which provides a declarative API for a directory like structure on the web.

Made **tell-about**, a CLI tool that gives various details about any npm package using a simple terminal command.

### 2017 - 2019

Actively worked as a freelancer and helped various startups with their website designs and solve complex CSS and JavaScript problems.

Made a Gatsby blog and integrated it with Netlify CMS for a local event.

## Education

### 2020

Completed various JavaScript and React courses on Frontend Masters and egghead

### 2019

Graduated Grade 10 from Montfort Inter College, Lucknow, India

# Technologies

<b>Web</b>	HTML, CSS, JavaScript, React, Gatsby, Next.js, Node.js, TypeScript, GraphQL (client-side)
<b>Other</b>	Vim (primary), Visual Studio Code, Git, GitHub, Ubuntu
<b>Design</b>	Adobe XD, Figma

Apart from my current skill set, I am interested in learning Rust and server-side GraphQL

## Other

- **Public Speaking** - Speaker at React India 2019
- **Esports** - Plays Fortnite occasionally for leisure
- **Adobe Photoshop**
- **Adobe Illustrator**
